

G2000

Card & Pin Door Access System

- Cards can be added or deleted from the access privilege database
- Supports Card, Pin, Card + Pin modes
- Frequency of card-read device and identification of inductive card
- Low Power Consumption (30mA)
- Full Programming from the Keypad

SPECIFICATIONS

Model Name	G2000
Authentication Mode	Card / Password (4 Digits) / Card + Password
User Capacity	255pcs/ 10000pcs
Card Reading Range	3- 6 cm
Operating Voltage	12V DC
Active Current	<60mA
Idle Current	25+5mA
Electricity Lock Output	≤ 3A
Alarm Output Load	Max 20A
Operating Temperature	-45 – 60°c
Operational Humidity	10% --- 80%
Door Bell Output	Can connect it with door bell module
Dimension	117(W) x 117(H) x 21(D) or 4.61"(W) x 4.61"(H) x 0.83"(D)
Wiring Connections	Electric Lock , Exit Button
